

If I roll a dice 30 times, how many times is each number rolled?

First create a tally chart.

Score	Tally	Total
1		
2		
3		
4		
5		
6		

Then roll the dice and tally each score.

After 30 rolls, total how many times each number was rolled.

Now present your data on a bar chart.

Can you think of your own question to investigate?
