

26<sup>th</sup> January 2018

Excalibur Primary School

Term: Spring 1 Week: three

## Reception Class Newsletter

Another busy week has flown by in Reception. We have begun our next mini-topic "Terrific Transport". The children have found out about road safety and the dangers of roads. They have talked about different vehicles and have labelled vehicle pictures.

The children have also continued to find out about the polar regions. We used a popular search engine to find answers to the many questions they had about the Arctic and Antarctic. The children have also enjoyed watching how the Inuit people made an igloo.

In Read Write Inc, the children have all been working really hard. They are increasingly confident when word building or recording given words. We have also been busy sorting real and alien (non-sense) words.

In maths, we have been adding quantities and some children have had a go at recording number sentences. We have also been handling and interpreting data about how we travel to school. The children used their mini-me photos to show what transport they used to travel to school. We found that most children travel by car, some children use their scooters and a couple of children travel by bus.

### Runway Visitor's Centre

A letter for the Reception trip has been sent out with more details about our next day out. We will be going to the Runway Visitors Centre on **Thursday 15<sup>th</sup> February**. If you have any questions please come and ask.

### Mystery Reader

Lauren's mum was our mystery reader this week. She shared the story of "Paddington Bear". The children listened very carefully. Thank you so much for your time!

### Super stars

Well done to Joel and Joseph S. who are our stars of the week.

Keep it up!

Our VIP's this week are Lauren and Alexander.  
Super manners!

*Have a lovely weekend,*

*Mrs Rogers, Mrs Cheadle, Mrs Thompson and Miss Lewington*
