27th January 2020

Dear Parents/Carers,

We have been asked to take part in a national survey by the UKSEDS (UK Students for the Exploration and Development of Space) to investigate the importance of educating students about space-related jobs. The results will be used primarily for a scientific paper but may be used for future projects.

As part of our aims to raise the profile of STEM (science, technology, engineering and maths) careers with our children, we intend to allow time for the children in Years 4 to 6 to complete this survey at school. The survey does not ask for any identifying details, but certain questions are asked to establish the demographic of those completing the survey.

If you wish for your child to take part in this survey, then please complete the slip below and return to school by Tuesday 4th February 2020.

The link to the survey is below for your reference:
