26<sup>th</sup> May 2020

Dear Parents/Carers,

As part of our continued learning from home, we are launching the use of Seesaw, an interactive online platform which is designed to maximise student engagement and provide creative ways to share learning. Seesaw is used extensively across the country, and further afield.

From Monday 1<sup>st</sup> June, online learning tasks will be uploaded to Seesaw. Your child can then respond to tasks in a number of ways. I will then be able to respond directly with comments and feedback as required. Daily messages and general announcements will also be sent through the platform. You will shortly be receiving individual login details via email.

While the main purpose of launching Seesaw is to increase the ease with which your child can engage with learning from school, please do not feel obliged to respond to everything. You will each have found your own ways of working during these unprecedented times and it is advised that you continue doing what works for you. With this in mind, tasks will continue to be uploaded to the school website for the duration of the summer term. Also, the email for general queries will continue to be contact@excalibur.cheshire.sch.uk.

Once you receive the Seesaw login details, your child will be able to sign into the platform either on a computer or an iOS or Android app. The link for logging in on a computer is <https://web.seesaw.me/>. The app is called *Seesaw Class*.

There are several video tutorials available online, and I have found the system itself to be intuitive and user-friendly. However, if you do have any questions or queries, please get in touch.

Yours sincerely,

Mr Hancock  
Class Teacher
