

Make you own clock!

To help you practise telling the time I would like you to create your own clock.

I have provided a template that you could use or you could design your own.

If you have a paper plate then that would be ideal for the face of the clock.

You could use card, lollipop sticks, straws or whatever works for you as the hands but they do need to move so that you can use it to show different times.

Be as creative as you can.

On your clock you need to show the hours (1-12) as well as the minutes to and past - see the images on the next few slides to see what I mean.

There are also some examples of other homemade clocks that you might find useful.

Telling the Time

Here are some examples of homemade clocks to give you some ideas.

*HOW TO MAKE
LEARNING CLOCK
FOR KIDS*

Use your clock to show these times.

- 7 o'clock
- 3 o'clock
- 10 o'clock
- 1 o'clock
- 12 o'clock
- Half past 8
- Half past 2
- Half past 9
- Half past 4
- Half past 6
- Quarter past 5
- Quarter past 11
- Quarter past 3
- Quarter to 10
- Quarter to 1
