

02.07.20

Hi everyone,

I'm just writing a quick note to tell you about all the fab things you can look forward to when you arrive in Year 5. I'm really looking forward to meeting and getting to know everyone properly!

Firstly, let me tell you a little bit about the initial topic that we'll be studying. It's going to be based on a really great book (my favourite in fact) called Kensuke's Kingdom. We will do some English, maths, computing, design & technology, art, geography and history work all related to this! We'll be studying maps, looking at how the world is split by imaginary lines called latitude and longitude plus learning about how volcanoes are formed and comparing countries around the world. Maybe over the summer holidays you could do a bit of your own research and share what you have found out with us all when we come back.

As you are now going to be in upper KS2, you, along with the Year 6's, will be the pupils who have to set good examples around school as all the younger children will be looking up to you for guidance. However, from what I have seen, you do a great job already of setting good examples - keep it up!

So, I wish you all a very super and safe summer holiday. Make sure you have lots of fun!

See you soon

Miss McArdle
