4. To survive in such low temperatures, these brilliant birds have special adaptations - they have large stores of insulating body fat and several layers of scale-like feathers that protect them from icy winds. They also huddle close together in large groups to keep themselves, and each other, warm.

9. These birds are super swimmers and impressive divers. They can reach **depths of over 500m** and stay underwater for up to **22 minutes!**

Have a go at making some of your own notes from this piece of research.

<https://www.natgeokids.com/uk/discover/animals/birds/emperor-penguins/>

Have a look at these pictures.

Can you add anything to your notes about what Emperor Penguins look like?

Now its your turn...

There are four websites which you can have a look at to research Emperor Penguins.

Try to make some notes as you research. This will help build up your sentences for your non-chronological report.

Your notes do not have to be full sentences but make sure you write down the key information.
