Task 1

Today we are going to use our research notes from the lesson yesterday.

Can you see any facts that are similar? Can we group them together?

What sub-heading can we give my notes on the next slide?
What are we trying to tell the reader about?

4. To survive in such low temperatures, these brilliant birds have special adaptations - they have large stores of insulating body fat and several layers of scale-like feathers that protect them from icy winds. They also huddle close together in large groups to keep themselves, and each other, warm.
