

Thursday 21<sup>st</sup> January 2021

Today we are going to continue drafting our non-chronological reports.

Please make sure you have your plan with you when you begin your writing.

# Planning Your Report

Title

Emperor Penguins

## Introduction

What is the report about?

- 17 types of penguins.
- Emperor - largest species – 115cm tall.
- Penguins live in Antarctica.

## Sub-heading

Add interesting facts and information below.

### Appearance

- Black head, tail and wings.
- Yellow markings on head and neck.
- Coats have 4 layers of feathers -windproof

## Sub-heading

Add interesting facts and information below.

### Diet

- Hunt in the ocean for food.
- Eat fish, krill, squid and crustaceans
- Female leaves egg to hunt

## Picture/Diagram

Add a picture or labelled diagram.

### Habitat

- Penguins live in Antarctica
- Wind chills as cold as -60 degrees.
- Spend entire lives on the ice or in the

surrounding waters of Antarctica.

twinkl.co.uk

## Sub-heading

Add interesting facts and information below.

### Adaptations

- Special adaptations – store of body fat to keep warm in icy winds.
- Several layers of scale-like feathers to protect them.

## Sub-heading

Add interesting facts and information below.

### Interesting Fact

- Emperor Penguins only lay one egg.

## Picture/Diagram

Add a picture or labelled diagram.

DUMTUM

Monday 19<sup>th</sup> January 2021

## Emperor Penguins

Subheading

### Introduction

There are 17 species of penguins. Emperor penguins are the largest of them all with some reaching up to 115cm tall. They spend their entire lives in Antarctica and are thought to be the only bird that never steps foot on land. Some Emperor penguins can live up to 50 years and there are thought to be approximately 595,000 adult penguins in Antarctica.

Draft paragraph to introduce Emperor penguins.

# WAGOLL

Subheading

## Appearance

Penguins are a type of bird which means that they have feathers, wings and lay eggs. They have wings called flippers. **However**, they do not fly because their wings are too small. Emperor penguins have a white stomach, black head, tail and wings. **In addition to this**, they have yellow patches around their ears and an orange beak. Male and female penguins look similar. **However**, the female penguin is slightly smaller. Their coats are made up of four layers of feathers therefore, they are windproof and waterproof.

Draft paragraph to inform the reader what Emperor penguins look like.

Connectives  
(see next slide)

# Top Tip!

During Monday's lesson we used conjunctions and connectives to write sentences about Emperor Penguins.

Have a look at your sentences from Monday's lesson and see which ones you may be able to include in your writing today. You will be able to add to these as you write your paragraph.

There are facts and a WAGOLL on the online learning page too!
