

Now you have watched the video try these questions.

Practise your 5x table to help you count tallies.

Can you read these tallies? Remember  means five.

Q1

Can you turn these numbers into tallies?

Q2

3

5

9

12

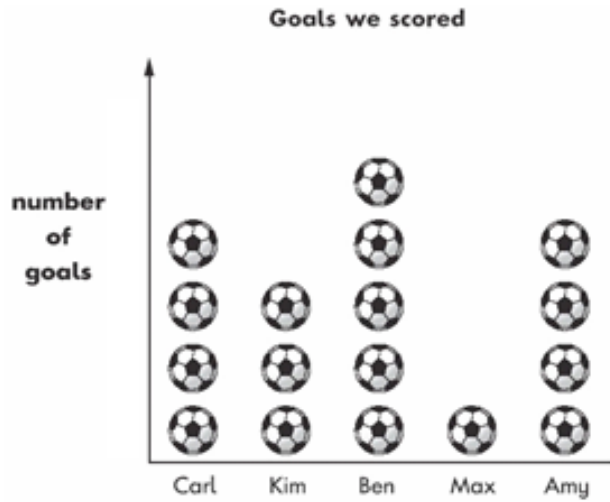

7

16

23

Q3

Look at the chart.

Which children scored the same number of goals?

Turn this chart into a tally chart.

children	goals	tally

Q4

Practise your tally skills by counting something at home:

- Go on a tour of your home and count: light switches and sockets
- Or, the hats, scarves, gloves that people wear when they walk past your house. (Which is the most popular?)
- Or, delivery vans, cars and cyclists that go past your house.
