

**\*\*\*I can consider the author's choices and make inferences.**

- 1) The female leaves quickly after laying her egg. How does the text tell you this?
- 2) Why do you think that the author says they are having a nice time?
- 3) (As far as you can tell!) Why has the author added this sentence?
- 4) How does the author explain to the reader what krill is?
- 5) Why does the author ask, "Can you imagine it?"
- 6) Why has the author written, "or breakfast or lunch or tea"?
- 7) Why don't the penguins mind being on the ice with no food in the cold?
- 8) Can you find and copy a word that tells you how the huddle travels.
- 9) What does this word tell you about how the huddle is moving?
