

I can identify and use the different forms of past tense accurately.

Task 1: Decide which form of past tense each of the sentences are.

Task 2: Rewrite the sentences in the other two forms of past tense.

Example:

The station inspector wandered around the station. (simple past)

The station inspector was wandering around the station.

The station inspector had wandered around the station.

1. Uncle Claude left the train station.
2. I found the automaton in the debris.
3. The old man was slamming the door in my face.
4. My father had spent hours fixing the automaton.

Extension:

Write a paragraph about what you did over half term. Try to include all three past tenses accurately and appropriately.
