

# Reception Class Excel in Multi- Sports Session Led by Year 6.

Reported by Lewis and Harry in Year 6 | Published June 12<sup>th</sup> 2023

*The reception class at Excalibur Primary School participated in a well-organised multi-sports activity during which they put 100% effort. It was aimed at involving them in different sports and engaging them with other children at a higher age. The young students made a huge step in their physical education and moved forward in lots of different sports, two being football and athletics.*

*Reception pupils, Noah and Albie commented on how good the session was and would recommend it to other students in the school saying: "I really enjoyed the football and shooting the ball. It was really fun and I would do it again"*

*Almost all of the Year 6s said just how brilliant the receptions were and praised them on their resilience when they did the drills. "I would love to coach them again," quoted Lewis, one of the Year 6's who arranged an activity.*
