

Excalibur Primary School

2nd October 2023

Pre-school Class Newsletter

Term: Autumn 1 Week: five

The week has flown by and the pre-school children have been working so hard. We welcomed a new little boy to our setting and everyone was busy making sure that he felt welcome. Well done everyone!

This week, the children have enjoyed activities planned around two familiar Nursery Rhymes, 'Twinkle, Twinkle little star' and 'Jack and Jill'. The children have constructed their own telescope to find the stars. They enjoyed looking through different coloured cellophane, to view the world through a different lens. Everyone has created a star for the 'Star of the Week' display. We have also enjoyed performing various Nursery Rhymes with musical instruments during Music Time. In 'Music and Movement', we have practised galloping, our three point and one point balances and finding our own space to work in. The children tried really hard to follow the instructions.

Excalibur Pre-school

Remember to ask if you have any questions.
Have a great weekend!

The Pre-school Team

Each week, we will choose two children to be our 'Stars of the Week'. They will receive a certificate during a special EYFS celebration assembly. The children also get to wear a star badge for the week. Badges are collected into Pre-school on Fridays, ready to give out to the next stars. We know it is sometimes hard for little ones to wait. Please remind the children that it will be their turn very soon so to keep on working hard!
