Step 4: Subtraction – Not Crossing 10

National Curriculum Objectives:

Mathematics Year 1: (1N4) [Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than \(fewer\), most, least](#)

Mathematics Year 1: (1N2c) [Read and write numbers from 1 to 20 in numerals and words](#)

Mathematics Year 1: (1C4) [Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as \$7 = - 9\$](#)

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

Developing Identify which representation is the odd one out when subtracting an amount from a given number (within 20). Numerals only with pictorial support.

Expected Identify which representation is the odd one out when subtracting an amount from a given number (within 20). Numerals only with some pictorial support.

Greater Depth Identify which representation is the odd one out when subtracting an amount from a given number (within 20). Numerals and words with limited pictorial support. Includes two-step problems.

Questions 2, 5 and 8 (Varied Fluency)

Developing Match each number sentence to the correct image when subtracting an amount from a given number (within 20). Numerals only with pictorial support.

Expected Match each number sentence to the correct representation when subtracting an amount from a given number (within 20). Numerals only with some pictorial support.

Greater Depth Match each number sentence to the correct representation when subtracting an amount from a given number (within 20). Numerals and words with limited pictorial support. Includes two-step problems.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

Developing Identify and explain which statement is correct when subtracting an amount from a given number (within 20). Numerals only with pictorial support.

Expected Identify and explain which statement is correct when subtracting an amount from a given number (within 20). Numerals only with some pictorial support.

Greater Depth Identify and explain which statement is correct when subtracting an amount from a given number (within 20). Numerals and words with limited pictorial support. Includes two-step problems.
